The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1, 3-5, 7-10, 12, 15, 17-18, 20-32, 53 and 55 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

I. Claims 1 and 53 recite the limitation "the component" in line 9. There is insufficient antecedent basis for this limitation in the claim.

II. Claim 55 recites the limitation "the other distributed application component" in line 14. There is insufficient antecedent basis for this limitation in the claim.

III. As per claims 1 and 53, it is uncertain whether "another distributed application component" and "the other distributed application component [see the steps of the claims] refer to "one or more other distributed application component".

IV. Claim 12 is rejected for improperly depend on the canceled claim 6.

Claim 55 is rejected for an improper claim number, which leads the instant application has two claim 53.

Correction is required.
